ACADEMIC BACKGROUND

	Institution Name	City, State	Diploma or Degree	Year Earned
High School or Equivalent				
College				

ADMISSION APPLICATION PURPOSE

With this Admission Application you are stating that you sincerely wish to complete the program of study indicated above with APT College. If you are requesting admission to a degree program, you must submit:

- Official transcripts from High School, or equivalent (i.e., GED), or
- Official transcripts from a College where you have completed coursework

Students eligible for admission to APT College are working adults employed by major telecommunications and electric power companies throughout the United States. The College offers continuing education and degree programs to adult learners employed in these fields to support opportunities for career advancement. Students use employer tuition assistance funds to pay for their education. Students are required to submit a completed Student Payment Agreement. Upon completion of the course, students pay APT College after they have received tuition assistance funds from their employer. Failing students, or students who do not properly complete paperwork to obtain tuition funds from their employer are responsible for the entire tuition fee to be paid to APT College. Failing students are offered to retake the same course at no additional cost. If students withdraw from the course prior to completion, students are responsible for paying APT College for the percentage of the course completed in accordance with the published refund and cancellation policy. In the event that students choose to pay for their tuition and not use tuition assistance funds or because tuition assistance funds have been depleted for the current year, the refund policy outlines the percentage of tuition money due to students upon withdrawal from the course.
